Pay attention! Details 2 should be positioned exactly as it is shown on the instruction to work correctly.

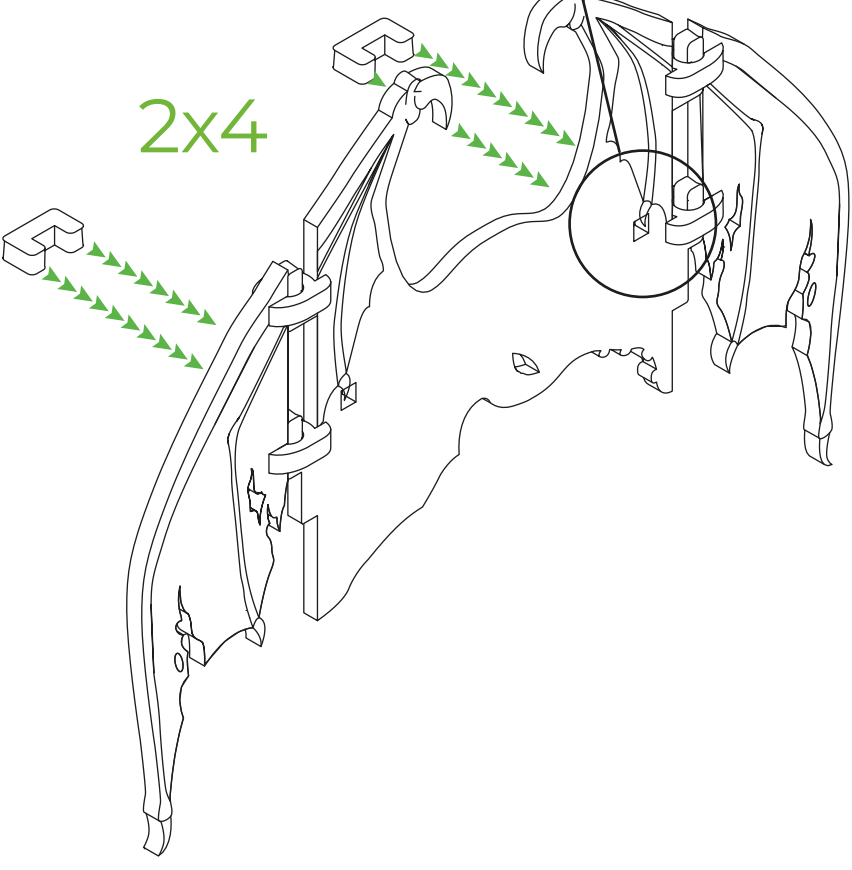

Зауважте! Для коректної роботи, деталі 2 мають розташовуватись саме так, як зазначено в інструкції.

We also recommend adding a bit of wax on the detail 8 perforation. It will add smoothness to the lid's sliding.

Рекомендуємо змастити отвір деталей 8 воском, задля плавнішого ходу акрилової кришки.

7

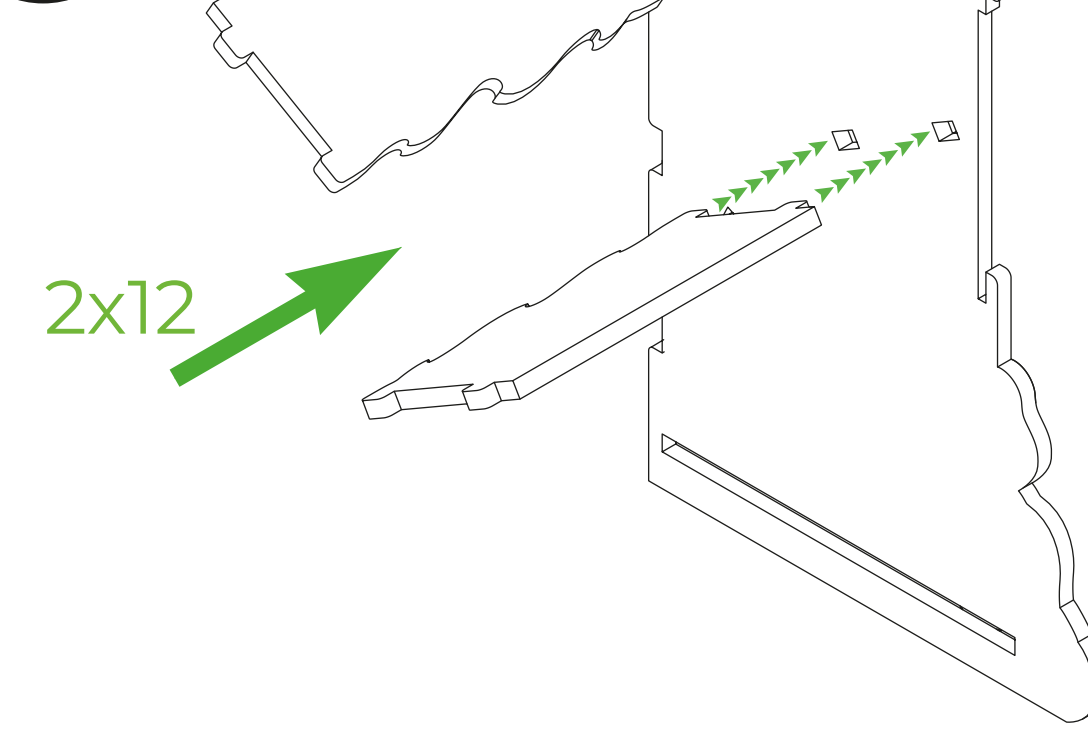

Important point! Acryl lid is placed with the engraved side up, so the smooth part is facing the bottom of the dice holder.

Зауважте! Акрилова кришка вставляється малюнком догори, так, щоб гладка частина акрилу була знизу.
